### WASHINGTON.

# Sub-Committees Soon to Report or the Chinese Bills.

Washington, January 18 .- The sub Committees at both ends of the Capitol in charge of the various Chine Immigration bills have held severa meetings during the past few days and expect soon to be ready to report definite recommendations to their respective full committees. The Senate sub-Committee are working on the basis of General Miller's bill and it will probably be reported without any very material changes.

#### ARIZONA'S NEXT GOVERNOR.

All the Republican Senators and members of the House of Representa-tives from the Pacific Coast have united in a letter to President Arthur recommending the appointment of Col. Tritle, formerly of Nevada and now a resident of Arizona, to be Governor of Arizona, and the appointment of Hiram M. Van Arnam, of Oakland, of Hiram M. Yan Arnam, of Oakiand, Cal., to be Secretary of Arizona. Tritle's appointment is said to be specially advocated by Senator Jones. Nominations of both of these gentlemen will probably be sent to the Senate at an early day.

### A DOUBLE TRAGEDY.

#### A Mariposa Man Murders His Son in-law.

MERCED, Cal., Jan. 18.—Yesterday afternoon a terrible double-tragedy took place at No. 9 Quartz mine, near Horltos, Mariposa county. Albert Branson, aged about 22 years, was shot by his father-in-law, William B. Simmons. The ball took effect in the left breast, inflicting what is propounced a breast, inflicting what is pronounced a fatal wound. Immediately after the shooting Simmons turned the revolver upon himself. The bullet

producing instant death. Branson mar-ried the daughter of Simmons about a year ago, since which time the men have been partners in the ranching business, the young married couple living in the house with the old people. The trouble is supposed to have originated about their business matters. Simmons is about 70 years of age, and has generally been considered a quar ne and dangerous man by neighbors, and has in past years had trouble with his family.

#### THE TEDIOUS TRIAL.

#### in Still Wants to Address the Jury.

ed Press Dispatches.]

WASHINGTON, Jan. 18.—Guiteau came into court this morning with a quick, confident step, and saluted his friends. As soon as he had taken his eat he turned to Judge Cox and said : "I presume your honor will allow me to address the jury when Scoville gets

through ?"
Judge Cox—" We will consider that
when Scoville gets through." Scoville, in reply to the inquiry, stated that he hardly expected to conclude his speech to-day. Scoville resumed his address, taking up and dis-

introduced in evidence by the prosecution. He had noticed that the table produced here by Dr. Gray omitted some essential features of his report. Corkhill—"Dr. Gray did not pre-pare any tables especially for this

trial." Scoville-"Dr. Gray was hired to come here to help hang this man. He was one of the conspirators in the con-spiracy of which the District Attorney was chief. He has left his foot-prints here, and before I get through I can contradict him out of his own mouth.

#### SPECULATIONS.

As the trial of Guiteau is approach ing its close there is much speculation that the jury will promptly return a verdict of guilty, but there are some who claim that they have seen certain signs which indicate that the jury will disagree. Some go so far as to say that they now stand nine for conviction and three wavering, even naming the lat-ter. There is for this supposition but the slightest kind of a foundation.

### EXECUTION MAY BE POSTPONED.

There is little doubt that should the verdict be guilty, the prisoner will spend several months in jail before his execution. Of course the defendant's counsel will take the case up to the general term, and should the trial last over this week, the next general term convening on Monday, the case will go to the April term, which runs to Sep-tember. In this case the prisoner's exceution may be postponed till next Fall. If the jury gets the case this week and find a verdict of guilty, the execution will take place in the Spring.

# WILL ARGUE THE CASE.

Scoville continued to speak until three o'clock when the Court ad-journed until to-morrow. He will probably occupy the greater part of another day. Counsel for the defense will, if permitted by the Court, argue the question of permitting Guiteau to address the jury.

### LOGAN'S EDUCATION BILL.

Senator Logan recently offered a bill in Congress, devoting all monies received from the tax on liquors to the purposes of general education, and to proportion to the illiteracy. The bill \$2.50 per day in a gravel claim in Happy valley, Shasta county. He discovered the fund would go to the country. the fund would go to the south, where, on account of the colored population, the illiteracy is much greater than in the Northern and Western States; and pox. to popularize the bill, Mr. Logan has offered an amendment which provides for the distribution of the money to the States and Tarritories according to the States and Territories according to population, which will make a wide difference in the final disposition of the fund, and will distribute it per cupital according to the number of school according to the number of school children in each State.

Some Sound Sense from a Sensible Times Correspondent. .

Tricson, Jan. 16, 1882. The late Indian trouble here has cost our government an enormous expenditure-more than enough, no doubt. honestly used, to have boarded the whole military force of Arizona at the Palace Hotel of San Francisco and given to the officers and men excursions up and down the bay for their health during the six months of the encounter. It is rather questionable, too, if it would not have been much more creditable, at least to the department, if this had been done, than to have left the doubtful record they have made for efficiency as Indian exterminators. Red tape and jealousy are frail weapons to bring to ecution two days ago and will be sold at the front, even against poor Lo, and Sheriff's sale. there was so much of that going on as to leave but little time for aught else except waiting for assistance and to give the redskins a chance to escape, which they did. This farce and these troubles magnified, greatly to the aggrandizement of our brave boys in blue,

coupled with the other and greater out-rages that are being constantly perpetrated with impunity on our peaceful citizens by the so-called cowboys, have given Arizona a set-back of the most serious character, and one which, for its sake, is greatly to be deplored and deeply regretted.

Arizona to-day would have been much na to-day would have been much more densely populated, her mines have been in greater favor and demand in the East, the country have been thickly settled with farmers and stock raisers, but, alas that it should be said, our government has not given to the people of this Territory any, even the slightest, protection for life or for property. It is an unpleasant assertion, this, to

make, but it is nevertheless the truth. Life has been and is taken daily, marauding and cattle stealing, stage robbing and high-handed intimidation are but the common occurrences of every day. So far and to such an extent has this been carried on that it threatens to fairly paralyze the country. No one is safe from outrage of some kind or oth-er outside of organized and settled com-runtities. Why capput and why does munities. Why cannot and why does not the government make an effort? What better use for the people, and to what better purpose for themselves, could the soldiers now in the Territory be put than to be turned into a regular-ly organized and thoroughly equipped mounted police. They could thus be made efficient in the extreme, used in scouring the whole country under good, determined officers and with thorough system they would soon clear the com-munity of every dangerous character now in it, and this Territory would then be perfectly safe for life and property. Government should, and it is its duty

Tree Planting—The Linnet Pest and How to Get Rid of It—Building.

There are several hundred Bartleti pear trees being set out in this vicinity this season, it having been demonstrated that our soil is peculiarly adapt ed to the successful growing of this splendid fruit.

The birds are still at work picking off and destroying the fruit buds on the peach, nectarine and apricot trees. have poisoned over five hundred of these little pests by putting strychnine on to the half of an apple, and placing it in the trees, flat side up. I have found, I think, as many as twenty-five birds to every apple poisoned, and all were linnets, except three or four, out of the 514 counted.

More building has been done in this than in the tree or four previous years. G. V. D. Brand.

### FEMALE FIGHTERS AGAIN.

How Mrs. Grant Brought Down Neighbor.

City Justice Adams and a jury of three had a time with Mrs. W. D. Grant, the fightist, yesterday, but the jury discharged Mrs. Grant after hearing strong case against her. The testimony for the People proved that Mrs. G. had thumped a neighbor with brickbats, etc. This is not the first time the two etc. This is not the first time the two female warriors have been up for fighting. A similar case was tried by Judge Fisher about a week ago and one of the parties was fined five dollars. The next time they are brought up the Court might form a ring and let them fight it out in true knock-down style.

He found her at one of the principal hotels and sent his card up to her rooms In about three-quarters of an hour the card was returned, with word that the lady was not in the habit of being interviewed by newspaper men. But the reporter was determined to have a talk with her, so he put his wits to work and concluded to bring her manager to his ssistance. The manager was trotted out, but was powerless, as the lady never admitted him in her august pres ence except on pay day, and then only long enough to settle financial matters for the past week. But not whipped. He had read some-where that a ladies' maid kept herself well posted as to her mistress' past, present and future history, so he waited until the actress went out, when he waltzed up to her rooms and bolted in, in a style reporters have. There were four or five ladies dressed in the latest fashion ladies dressed in the latest fashion lounging around the room reading and doing fancy work. In an instant all was confusion. Some of them cried "police!" and the rest "murder!" The reporter thought he had made a blunder and entered the wrong parlor. "Ah, excuse me, ladies, but I was informed that Miss De Lome's hair-dresser was in this room. Have I made a mistake?" said the quill driver, in fear and trembling.

"No. I am the person you are look-ing for I suppose," said one of the ladies stepping forward. The reporter stated his business and asked to see the lady alone. She motioned the others to leave the room with a queenly sweep of her hand, and asked the reporter to

#### OUR OWN.

BY MRS. M. E. SANGSTER. If I had known in the morning
How wearily all the day
The words unkind
Would trouble my mind
I said when you went away,
I had been more careful darling,
Nor give you needless pain;
But we vex "our own"
With look and tone,
We might never take back again.

You may give me the kiss of peace,
You may give me the kiss of peace,
Yet it might be
That never for me
The pain of the heart should cease.
How many go farth in the morning
That never come home at night;
And hearts have broken
For harsh words spoken,
That sorrow can ne'er set right.

Me have careful tho'ts for the stranger And smiles for the sometime guest;
But oft for "our own"
The bitter tone,
Though we love "our own" the best,
Ah! lips with the curve impatient;
Ah! brow with that look of scorn;
"Twere a crue! fate,

Evils of Cottonwood Trees. A correspondent of the San Bernardino Index says: In my various avocations in this state I have become quite familiar with the blue gum or eucalyptus and cottonwood timber. While the eucalyptus is beneficial to health, the cottonwood is decidedly the opposite. I will cite a few instances in point: From 1850 to 1865 the culture of cottonwood trees was promoted in and around From 1850 to 1865 the culture of cotton-wood trees was promoted in and around the premises of Mr. Briggs, Yolo county, around his dwellings and among his truit trees. His family became unhealthy. The cause was attributed to the poisonous effects of the air inhaled from the luxuriant growth, and fumes inhaled from the trees, connected with the fine, fibrous dust or cotton from the trees. The trees were destroyed and health followed, which was a gratifying result. On the Tuolumne river a very similar incident occurred at the place of Messrs. Sawyer & Clark, near place of Messrs. Sawyer & Clark, near the Pacheco Pass, and seven miles south of Hill's Ferry, in 1873. Mr. Clark vis-ited his friends east, previously calling the attention of his foreman to the bad taste of their water. On his return, three months later, he found that the three months later, he found that the forman had sickened and died, while foreman had sickened and died, while foreman had sickened and died, while the whole force was sick. The well was cleared out to a depth of twenty feet, and it was found that the cotton call, I will guarantee satisfaction.

### Sleep for Children.

There is no danger that children can There is no danger that children can is leep too much. The old proverb. "He whe sleeps, eats," is illustrated in those little ones who sleep most. Wakeful children are almost always peevish, irritable, and lean. If they can be induced to sleep abundantly, they are quite likely to become goodnatured and plump. Their sleep should be as much during the hours of darkness as possible, and therefore it is better that they should go to bed before to sunset to have their sleep out, than to lie long after sunrise in the morning. It is well to let any healthful, growing It is well to let any healthful, growing child or young person sleep until he wakes himself, and give him such variety and amount of out-door exercise as shall make him glad when bedtime returns. returns.

A STIFF whisk broom is better to remove the dirt from a horse's legs than a currycomb. Many horses with thin skin are exceedingly nervous, and rest-ive in the hands of a careless groom and this nervousness often degenerates

The only way to put an end to the innumerable suicides which occur in Trance every year," said a speaker in the Assembly, "is to make the act a capital offence, punishable with death."

Tyndall's theory that heat is simply motion in another form mast be true. Strike a piece of iron and it becomes hot. Strike a man and he immediately boils over. There is, however, one exception to the rule. Strike a warm friend for a short learn and heat once friend for a short loan and he at once becomes as cold as an iceberg.

### A ONE HALF INTEREST IN THE

Horne & West

ELECTRO-MAGNETIC BELT

THIS IS THE same belt which is now manufactured by W. J. Horne, and which he is extensively advertising as the W. J. HORNE BELLT. This Belt was invented and patented by myself. Afterward I assigned one half interest in this Belt to W. J. Horne, which he now owns in common with me. This Belt has taken two premiums at State Fairs; but as I have invented another BELT, of double the power of the HORNE & WEST BELT, and much superior to it in every respect, and which I make and sell for ONE HALF the cost of the old Horne & West Belt, I will sell my one-half interest, in the Horne and West Belt cheap for cash. Any person meaning business call at my
